

## Overview

Building Solutions in FileMaker Pro builds on the skills learned in the Using FileMaker Pro course. Using FileMaker Pro is covered in more depth with a wide range of examples. The course covers topics in building relational database solutions. At the completion of this course, you will be able to create a new database, work with data and records, and create layouts to produce reports. You will receive a comprehensive training manual and a certificate of completion.

## Course Length & Pricing

2 days, \$980 (AUD inc GST)

## Who Should Attend

Anyone with some experience using FileMaker Pro who wants to learn more about working with, building and modifying FileMaker Pro 8/9 databases.

## Prerequisites

You should be familiar with the MacOS or Windows XP operating system. You should have used FileMaker Pro to create a database, create basic layouts and work with records. Previous experience with a word processor and/or spreadsheet is helpful.

## Terms & Conditions

All courses are subject to minimum registration numbers. uLearnIT reserves the right to cancel any class within 10 business days of its scheduled starting date. Participants must cancel at least 10 business days prior to a class for a full refund. With less than 10 business days notice, no refund will be provided. A substitute may be sent if you are unable to attend a course.

## Course Outline

FileMaker Pro databases

*Exploring an existing database, more advanced searching and sorting options*

Field options

*Auto-Enter, Validation, Storage - examples of use*

Creating layouts

*Planning, creating, modifying; layout objects - tab control and web viewer*

Complex reports

*Creating layouts to produce summary reports - summary parts and summary*

Relational design

*Relational structures in FileMaker Pro, table occurrences and portals*

Scripting methods

*Scripting processes, useful scripts, modular scripting*

Scripting reports

*Scripting complex reports with user control*

Security

*Introduction to FileMaker Pro security model*

FileMaker Advanced

*Useful tools in the Advanced version of FileMaker*
